1. ABOUT ONE Youth

ONE Youth is a registered nonprofit organization (Reg no. 205) in Nepal. It is also a member of Social Welfare Council with a registration number 42194. The major sector of workings since 2015 are education, health, leadership and environment, incorporated within an individual project “**Education Infrastructure Development.**”

2. About Education Infrastructure Development

Education Infrastructure Development is a collaborative project that combines every sector within ONE Youth. The project is targeted for rural government schools within Nepal. The tasks can be classified with their own distinctive features and a separate team.

2.1 MAJOR TASKS

- A sustainable computer lab with at least 3 computers.
- A library with a minimum of 1000 textual and non-textual books.

2.2 MINOR TASKS

- Stationary donation (bags, copies, pens).
- Drug Abuse Prevention lectures.
- Sexuality and Reproductive Health Education.

2.3 COLLABORATIVE TASKS

- A documentary that captures people, places, culture and education to be shown to the rest of the world of the tasks we achieve while we are in rural villages conducting MAJOR & MINOR TASKS.

3. OBJECTIVES

Living in a generation where everyday tasks are automated by the computers, rural students in Nepal are deprived of computer education. During our projects, we have been to schools and know students who have not yet seen a single computer. We believe that a key to development is a qualitative education which is impossible without computer education. Lack of computer education, students will not be able to study in the competitive environment and neither get a proper job to get along with their life. Their ultimate solution is to go abroad and work with minimum wages possible.

In a poor nation like Nepal, rural families depend upon agriculture for food and money. Poverty discourages the guardians to send their children to school as sending their children requires stationery, lunch and other resources. So, they take their children to work along the fields with them. Stationery Donations and scholarship to those needy helps to eradicate this problem.

Education Infrastructure Development, thus, aims to improve quality of life through quality education i.e. a proper library and a computer lab which will make students competitive so that local manpower can be utilized for nation's development.

Cultural fundraisings are the type of fundraisings where cultural awareness is created along with fundraisings through traditional music, food, dance and exhibitions.

6.4 Hikiings

One Youth organizes semi annual hiking programs to collect funds.

7. Other Projects

7.1 Faces of Flood

Faces of Flood was a rescue and relief missions to flood affected families during the Plain Floods in Nepal in 2017. One Youth actively helped more than 150 families directly through food, medicines and basic needs.

8. Looking Back to The Past

On April 2015 Nepal got devastated by a 7.8 magnitude earthquake leaving the nation and the whole world in tears.

Just after the incident despite of being funded by no one, ONE Youth raised enough money through collaboration, to help the victims and distribute relief materials.

Those were indeed some of the proudest moment for us all to help our country in need.

9. To the Reader

Donate books, stationery and clothes. Volunteer with us. Help us continue the good deed. Don't think you can? Donate just an amount equivalent of your one cup of coffee per week. It's just a price of a coffee you lose but it's a way to a brighter future for others. Help us continue the good deeds.
